Hope's new Sanctuary Update

The date for moving the Hope Dogs into the new place is approaching and watching the building go up has been very exciting. We hope to be moved in with a few last week of April, of course that is being very loose. Many of you have volunteered your time, for painting, etc. but what we very much need is carpenters, people who can count and help a hand dig up and even start to clear new digs. If you have an SUV or mini van we could use your help. Please send an email to scoring@paranorm.com. If you would like to volunteer for this project, we will be setting up a date on a Sunday to do this so that even will be off work and able to help.

We have been taking pictures of the progress so that we can share with all of you.

Of course we cannot talk about the new place without also giving thanks to Mark and Jennie Buckley who without this would never have been possible. We will be having a big party here in the year when both Mark and Jennie are around. Stay tuned for that day, it will be doubt be a ton of fun.
